There are 12 tasks in total, and you need to repeat 12 times. Each order task is money, so you must make sure to complete 12 tasks. Remember, you must complete it immediately after accepting the task order.

After you completed the tasks, I will teach you how to earn more money.

The different levels in the company:

If you want to continue to earn more money, there are two ways to do this.

Unlock the VIP mission hall. There are 8 levels in the VIP mission hall, VIP1-VIP2-VIP3-VIP4-VIP5-VIP6-VIP7-VIP8. The number of completed tasks and the amount of money earned for each VIP level are different. The higher your VIP level, the more money you will earn.

Unlocking VIP2 requires a recharge of R700, you can complete 14 tasks every day and earn 25-30. In order to this you need to recharge with R400, since you already have R300 in your account. There are two ways in doing this. You can either complete tasks, and wait until you have built up R700 of assets and upgrade, or you can make a recharge of R400 and upgrade immediately.

Every level unlocked, will give you more tasks, more commission and more money.

Here is an example of all the levels, the commission and money you can earn from each level.

Here is how you can easily earn more than R100000 or even R1000000 in JUMIA's monthly income

It's very simple. You first invest R700 to upgrade to VIP2. Your daily income will be around R30, and your daily income will increase as your account funds increase.

Then you recruit 10 people and deposit R700 to upgrade to VIP2. The 10 subordinates you recruit directly deposit 4% rebate R280 from the subordinates' recharge. They can earn about R30 for completing tasks every day, and you can get them to complete tasks every day. 6% rebate R18

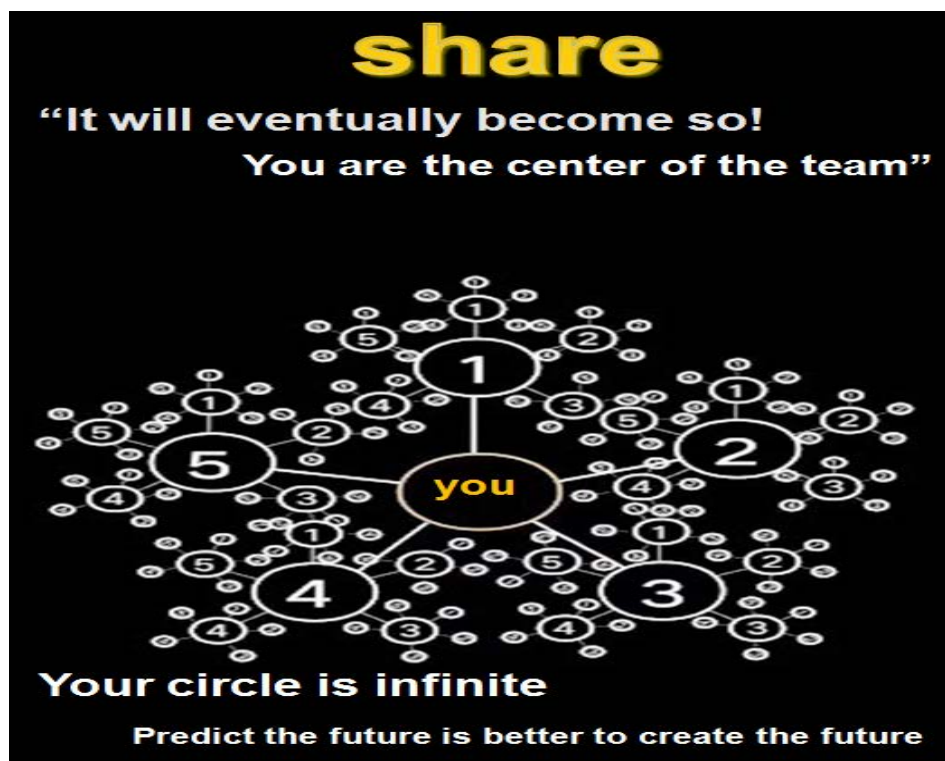

Then you teach these 10 subordinates, let them each recruit 10 people to recharge R700 to upgrade to VIP2, you will have 100 second-level subordinates, 100 second-level subordinates recharge R700 to upgrade to VIP2, you can directly get 2% Recharge rebate R1400, they can get R30 commission for completing tasks every day, and you can get 3% task rebate R90 every day. At this time, your monthly income can reach more than R10000

You can continue to teach 100 second-level subordinates to recruit 10 people to recharge R700 to VIP2, and you can directly get 1% recharge rebate R7000 for third-level subordinates. After the third-level subordinates are upgraded, their daily income can reach R30, and you can get it every day 1% of the task rebate R300, your team can reach 1000 people, your monthly income can reach R50000, teach this method to all your subordinates, they can make money, yours. When the team members make money, you will also make more money. Soon your monthly income will exceed R100000 or even R1000000.

Only when your team member successfully recharges the balance and completes daily work, he can become your effective subordinate member, thus bringing you income

And your team member's account funds will increase gradually, and your income will increase, and the rebates you will receive will also increase. Some people who have funds can also invest more money to make more money, so your income will be higher.

The most important thing is that you have to teach your subordinates, let your subordinates teach their subordinates, teach subordinates level by level, everyone can easily earn more than R100000 income, of course they are rich People who want to upgrade to a higher VIP will also earn more
